SUMMARY

I am a Frontend Developer with a year of experience in designing, developing, and deploying responsive websites using HTML, CSS, JavaScript, and React. I excel in collaborating with cross-functional teams to ensure timely delivery of high-quality solutions. My commitment to creating seamless user experiences drives my continuous improvement in technical skills and project outcomes.

EXPERIENCE

Web Developer

Upwork09/2024 - 01/1970Lahore, Punjab / Pakistan

Freelance Web Developer with experience on Upwork, specializing in delivering custom websites and web solutions.

- Developed a fully responsive, user-friendly website using HTML, CSS, and JavaScript, enhancing user experience across desktop and mobile devices.
- Collaborated closely with the client to translate their vision into a dynamic website, improving overall design and functionality.
- Optimized website performance, reducing load times by 30% and increasing user engagement.
- Implemented SEO best practices, resulting in a 20% increase in organic traffic within the first month of launch.
- Delivered the project ahead of schedule, ensuring 100% client satisfaction and receiving positive feedback for attention to detail and communication.
